What Our Students Say 學生的話

"It was a wonderful learning tour! It's possible for us to have sustainable farming and it just takes a bit of a longer time to do so. I was amazed to learn that we have to prune some of the oranges for others to grow well! This is something that I cannot learn from the classroom. And for the first time, I have learnt that earthworms can be so useful!"

- Andy Wang (S2, Fettes College)

"We often forget how vegetables are grown and take what we eat for granted. During the camp, we actually turned up the soil, and planted and harvested crops using our own hands. I was covered with sweat at that time but I enjoyed it very much. I now understand much more about sustainable development - for me, it was just something written in a textbook before. After the camp, I can visualise how the concept of sustainable development is actually implemented and operated on a farm in Mainland China."

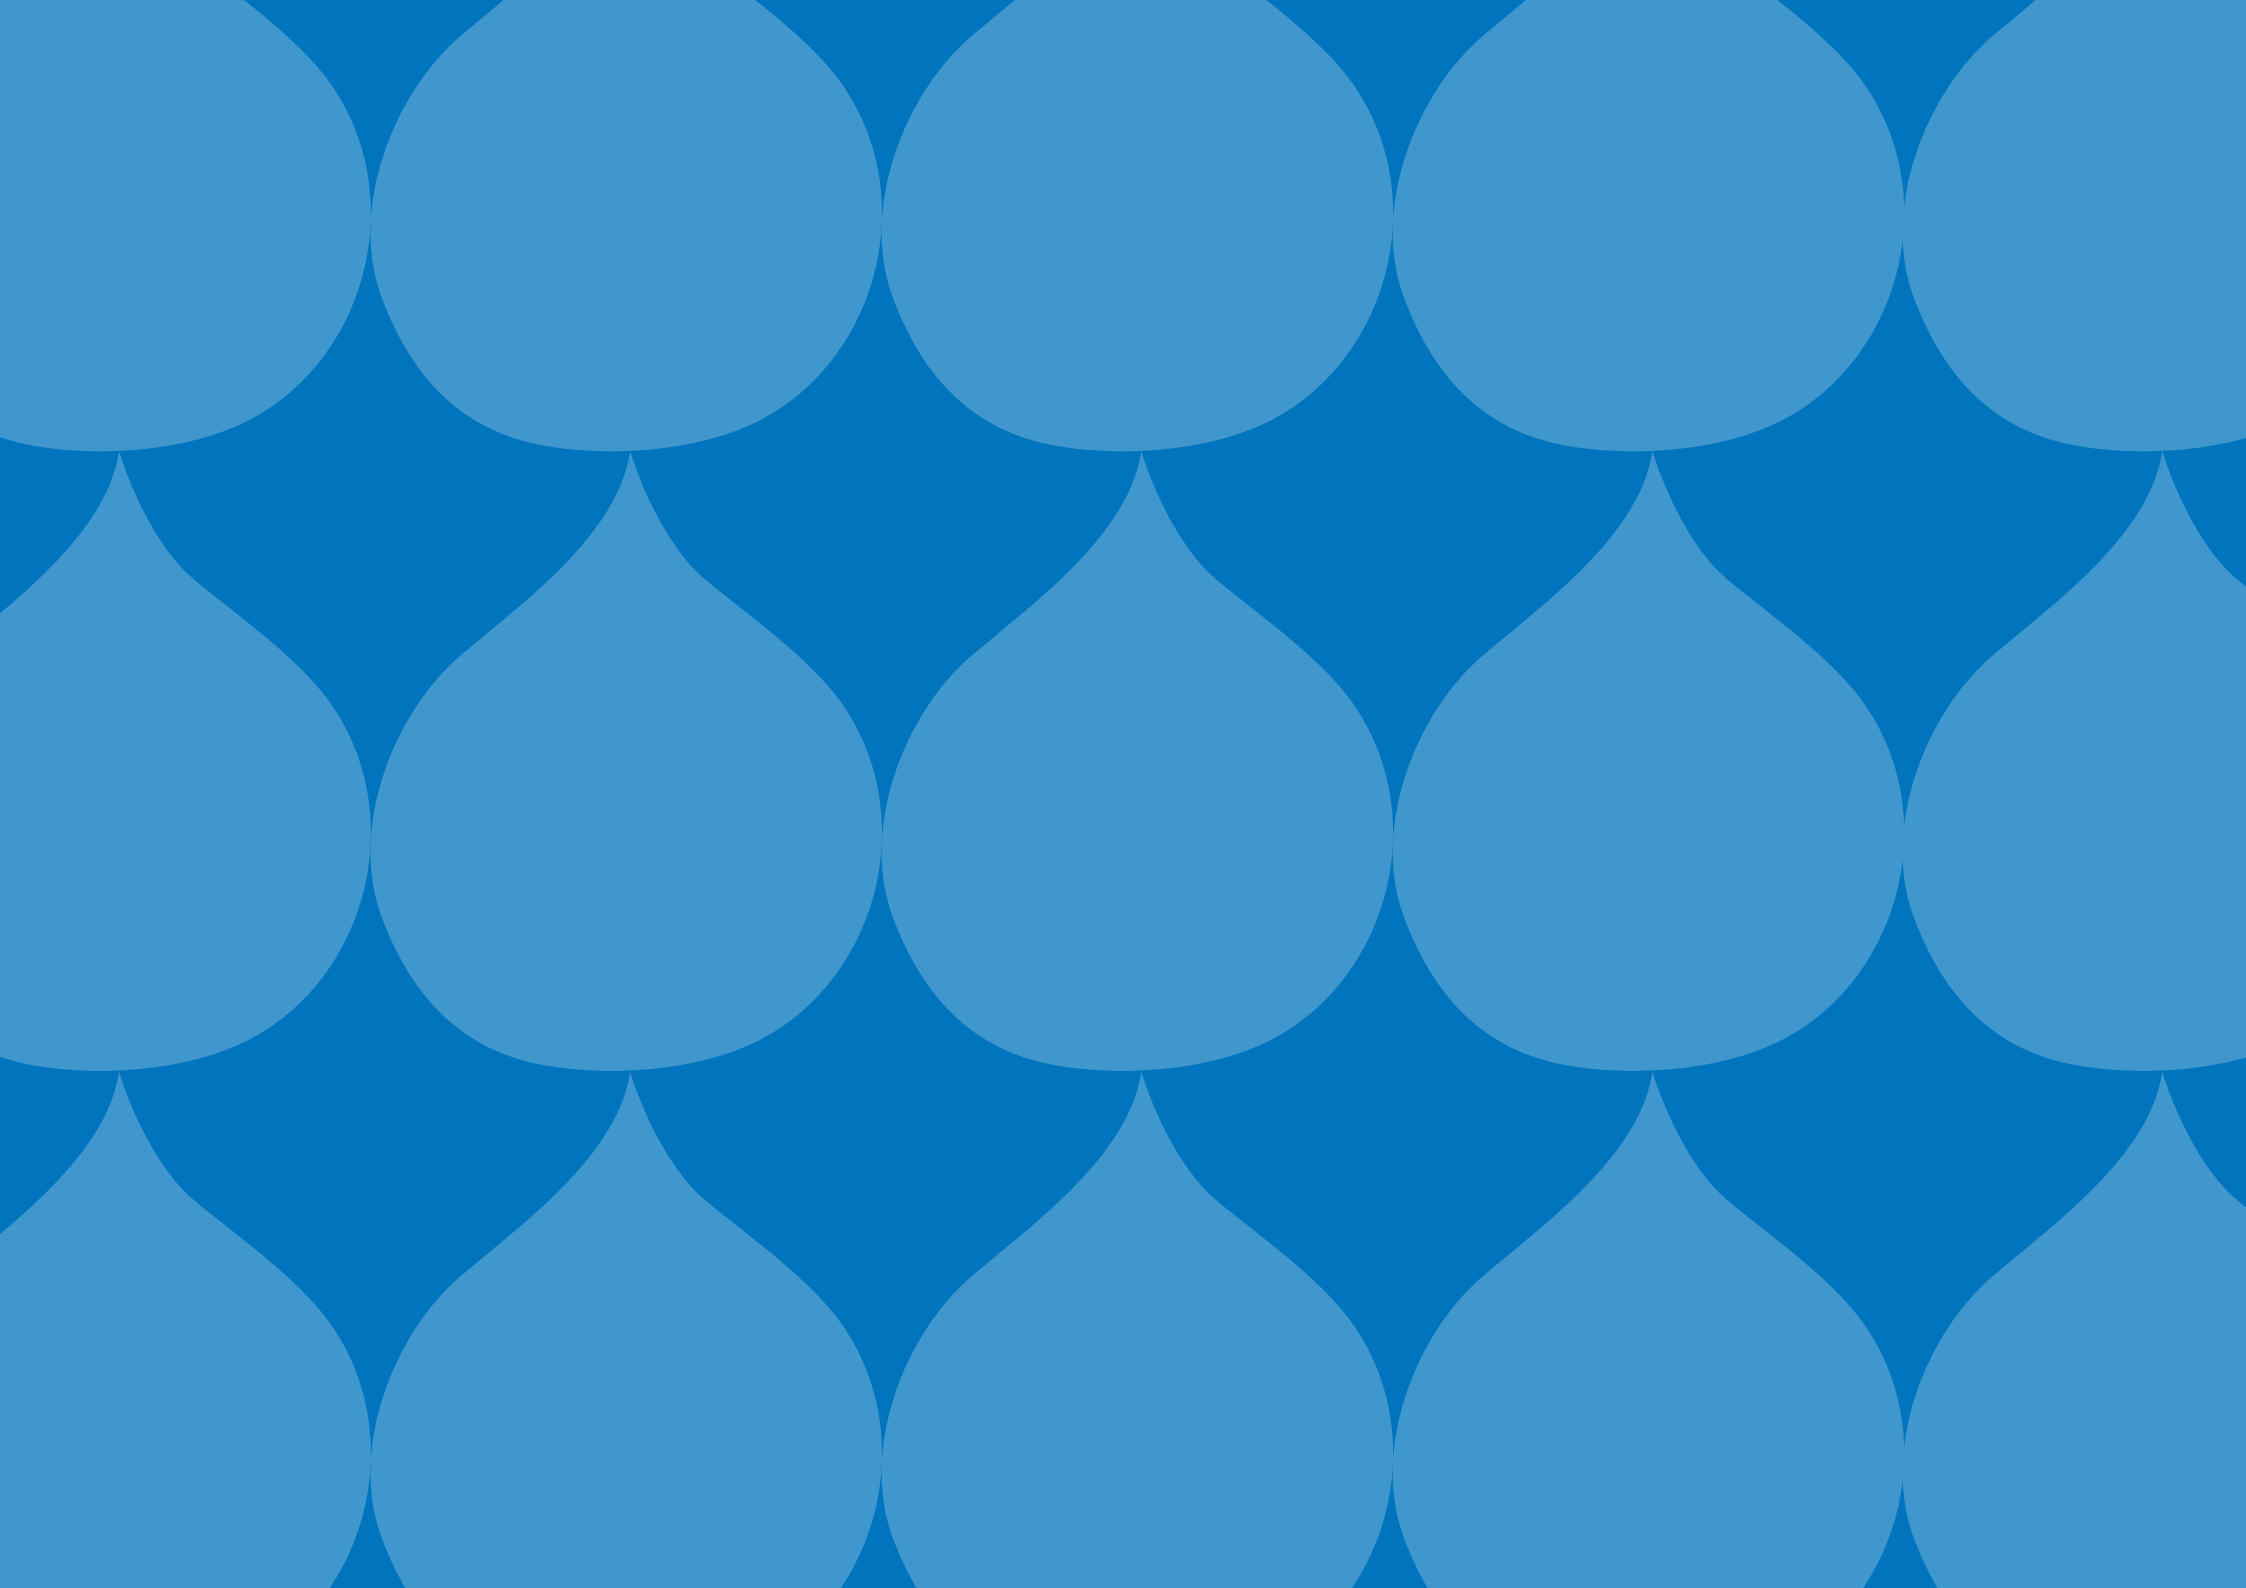

- Steven Chung (S3, Queen's College)

個學習之旅真係好好！只要放多少少時間去做，其實我哋都可以做到永續農業。我好開心學到好多學校唔會教嘅事物，例如原來我哋有時要剪走一部分橙，先可以令其他橙生長得更加好。同埋，我都係第一次知道原來蚯蚓係咁有用㗎！

- Andy Wang (S2, 費蒂斯公學)

平時我哋好容易就會忘記食物得來不易，但係今次嘅旅程入面，我哋要親身翻土、種植同收割，就令我有好深刻嘅體會。雖然當時好辛苦，但係亦都好享受整個過程。我學識咗好多有關永續農業嘅嘢，這些知識好多時都唔會喺書上面學到。經過今次旅程，我可以好清楚咁了解到永續農業係乜嘢㗎，更加知道佢實際上可以點應用。

- Steven Chung (S3, 皇仁書院)
